

# Bitstream Type Odyssey

This documents lists the 892 "Bitstream" fonts contained on the CD "**Type Odyssey**" (Type Odyssey 1) published in February 2001. The CD includes all fonts in both TrueType and PostScript Type 1 format.

The CD also contains several promotional fonts by other companies (e.g. Dalton Maag) not listed here.

For more details on the "Bitstream" fonts see <http://www.sanskritweb.net/forgers/bitstream2.pdf>

This document is typeset using the font **PrimaSans BT**, new in 2001 and especially suited for small print. For comparison, view <http://www.sanskritweb.net/forgers/bitstream3a.pdf> using News Gothics Condensed.
