

CorelDraw 5

List of TrueType Fonts

In **Corel9.pdf**, I listed PostScript Type 1 fonts, and in **Corel11.pdf**, I listed TrueType fonts.

In this **Corel5.pdf**, the oldest TrueType fonts are listed distributed by Corel Corp. in 1990-1994. The table is sorted by (1) Bitstream, (2) Corel, (3) URW. In those years, CorelDraw contained fonts no longer distributed by Corel, e.g. certain URW fonts. The following list comprises 830 fonts.
