The font Frutiger has been forged by many font forgers and font forging companies, e.g. by Martin Kotulla (Softmaker GmbH: forgery "Frontpage"), Rainer Grunert (Franzis GmbH, forgery "Frucht"), Matthew Carter (Bitstream Inc., forgery "Humanist 777"). For samples of these forgeries see <http://www.sanskritweb.net/forgers/monotype.pdf>, page 2.

Presumably the earliest forgery of Frutiger was made by Hans Florenz Walter Brendel, who is said to have been one of the first users of the Ikarus system in the 1970s. H.F.W. Brendel, who died in 1992, was an economical font forger who used to forge only three or four letters per font, as is shown by his Frutiger forgery which he called "Quebec Serial". For other forgeries by HFW Brendel see <http://www.sanskritweb.net/forgers/greenstreet.pdf>.
