

Fonts by Southern Software (SSi)

Southern Software Inc. (SSi) is (or was?) a font foundry located in Port Charlotte, Florida. There still exists this website <http://www.ssifonts.com>, but it was not updated since 2003. SSi is (or was?) a font forging company, run by Paul King, which forged roughly 2,000 fonts.

SSi was sued by Adobe (court file: Adobe Systems Inc. v. Southern Software Inc., Case No. C95-20710 RMW (PVT), District of California). It resulted in a „summary judgment“ of this district court (das entspricht einer einstweiligen Verfügung eines deutschen Landgerichts), and was restricted to **one** typeface only, namely to Adobe's **Utopia** versus SSi's **Veracity** and therefore must not be generalized. Adobe did not dare to seek a trial due to the fact that Adobe's motions concerning Slimbach's patent claims were denied by the district court. The summary judgment ran as follows:

„Based on the foregoing, the court grants Adobe's motion for summary judgment on its claim of copyright infringement of its Utopia software program, denies defendants' cross-motion on the copyright claims, denies Adobe's motion for summary judgment on the patent claims, denies defendants' counter-motion on the patent claims and denies Ares' motion for summary judgment on the third-party complaint.“ 1/30/98 /s/Ronald M. Whyte

Below we depict Slimbach's „Utopia“ and King's forgery „Veracity SSK“. Which is which?

1	abcdefghijklmnopqrstuvwxyz ABCDEFGHIJKLMNOPQRSTUVWXYZ
2	abcdefghijklmnopqrstuvwxyz ABCDEFGHIJKLMNOPQRSTUVWXYZ

Both fonts are not 100% identical. Paul King made a lot of changes to Robert Slimbach's font. Therefore, many or perhaps all SSi fonts are forgeries made by the „Monotype Method“ (see „The Funny Font Forging Industry, <http://www.sanskritweb.net/forgers/forgers.pdf>).

The same is true of forgeries made by Robert Slimbach himself. Below we depict 2 fonts, Adrian Frutiger's „Frutiger“ and Robert Slimbach's forgery „Myriad“. Which is which?

1	abcdefghijklmnopqrstuvwxyz ABCDEFGHIJKLMNOPQRSTUVWXYZ
2	abcdefghijklmnopqrstuvwxyz ABCDEFGHIJKLMNOPQRSTUVWXYZ

Ulrich Stiehl, Heidelberg, 8-May-2005
